# TECHNICAL DATA SHEET

## PC WASH 45

Highly effective printing inks remover

Description:

- Excellent at fast changes of printing jobs.
- Has a very good ability to mix with water – can be solved in proportion up to 1:1.
- The preparation is neutral for offset plate and does not cause swelling of the printing layer of rubber blankets.
- The preparation is recommended for everyday cleaning of ink rollers and rubber blankets.
- Does not remove enamel from parts of machines and therefore useful for cleaning metal parts and cylinders.
- Ideal for cleaning rubber blankets in fully automated mechanisms of sheet printing presses.
